

Anderson Energy Lab Manual

Overview

Welcome to the lab guide for the [Anderson Energy Lab](#) in the [Department of Biological & Environmental Engineering](#) at [Cornell University](#). The PI for the group is [C. Lindsay Anderson](#).

This manual details lab procedures, policies, and expectations for new and existing research group members. It is divided into the following main sections:

1. **Expectations and Conduct** outlines the expectations we have for each other and ourselves to ensure a functional, healthy, and productive lab group;
2. **Guides** provides guides for common lab tasks and materials;
3. **Resources** contains a rudimentary knowledge base with some basic resources and how-tos.
4. **Joining the Group** guides prospective and interested lab members through the process of joining the lab;

Contributing

Detailed instructions for commenting and proposing changes are provided in the README file of the [manual's GitHub repository](#).

Credit

This lab manual is forked from and adapted from the [Srikrishnan Group Lab Manual](#). We are grateful to the Srikrishnan Group for making their manual openly available.

The original Srikrishnan Group manual's organization and content borrowed heavily from several documents written by:

- the [Doss-Gollin Research Group](#) at [Rice University](#)
- [Lab Carpentry](#)
- the [Computer-Oriented Geoscience Lab](#) at the [University of Liverpool](#)
- the [Aly Lab](#) at [Columbia University](#)
